

Eastern Region Shoreline Management Plans

The shoreline from the Wash to Two Tree Island in the Thames Estuary is divided into 5 major cells each with an SM P:

- The Wash
- Old Hunstanton to Salthouse (Kelling Hard)
- Salthouse to Lowestoft Ness
- Lowestoft Ness to Languard Point
- Languard Point to Two Tree Island

Each plan has its stretch of coastline divided into Policy Development Zones for each of which Estuary or Coastal Management and Flood Management Strategies are devised to make up the whole plan. The plans are then put out to stakeholder consultation where local knowledge can be input. RYA East is one of the stakeholder consultees.
